

FOLLOW-UP ON THE ZIS – AUGUST 28, 2019

- The Municipality has forwarded its proposal of modifications of delimitation of the special intervention zone (ZIS) to the ministère des Affaires municipales et de l’Habitation (MAMH) last August 19.
- The Municipality based its report, amongst others, on all comments received by the citizens.
- Kudos and thank you to the Urban Planning Department who carried out outstanding work with the analysis of over 400 emails received.
- The Municipality is now waiting on a decision of the MAMH who will determine if other sectors will be allowed or removed from the ZIS
