2019 FLOODS – RECOVERY PLAN

Recovery plan phase

• The Municipality has begun the recovery plan, as the water levels are gradually going down.

Ensure your safety

• The Municipality wishes to remind you that, once the reinstatement authorization has been received from the Fire Department, it is your responsibility to ensure your safety and the sustainability of your home by observing the security rules such as:
  o Verify electrical, plumbing and natural gas installations.
  o Verify your well.
  o Verify the conformity of your septic installation.
  o Etc.

• Safety rules online: [https://www.urgencequebec.gouv.qc.ca/](https://www.urgencequebec.gouv.qc.ca/)

• In case you are absent during the Fire Departments’ visit, an inspection sheet containing all the procedures to be followed will be left at the door.

Waste and recyclable materials

• The regular collection of household waste and recyclable materials is maintained.

Construction residus and sand bags

• The Municipality invites you to proceed with the rental of garbage containers. The fees will be covered by the Quebec Ministry of Public Security in accordance with the terms of their financial assistance program: *The Municipality recommends that citizens validate their eligibility to the program beforehand.
  o Online: [https://www.securitepublique.gouv.qc.ca/](https://www.securitepublique.gouv.qc.ca/)
  o Telephone: 418 643-AIDE (2433), Toll free: 1 888 643-AIDE (2433).

Metal debris

• The Municipality invites you to put your metal debris and your sand bags at the edge of your property.
• We will soon inform you of the measures taken in regards to the collection of these materials.
