Pontiac

PUBLIC CONSULTATION

BOAT LAUNCHING RAMP

In order to move forward in the file pertaining to the boat launching ramp in the east of the municipality (Tremblay road), a committee chaired by Mrs. Leslie-Anne Barber (Ward 6) and Mr. Scott McDonald (Ward 4), was set up.

Citizens who are interested in this project are invited to play a part in the committee. This is a first step, allowing the council to consider the residents' interest in this boat launching ramp.

The committee will guide the municipal council on this file and participate in developing a financing strategy.

The firm *Argus Environnement*, mandated by the municipality to perform a study, will be present at the meeting to submit their report on the location best suited for the implementation of a new boat launching ramp in the eastern sector of the municipality.

Meeting :

**7:30 p.m. on February 27, 2018
Luskville Community Centre
2024 Route 148, Pontiac, Qc**
